CEO's NOTE

We pride ourselves in our ability to start every day as if it's Day 1 of our business. It's the reason why we develop new products daily for our customers that's sampled, tested, and hygienically processed.

It's also why we approach every day with an attitude to listen and learn from our customers, and consistently deliver the highest quality baked goods to customers across the G.C.C.

I firmly believe that it is this combination; a hunger for excellence and a 'never-settle' approach towards quality that has endeared us to our clients, many of whom have been with us for years together.

Lastly, if you're reading this, it means that you have also realised that quality is something that should be non-negotiable when it comes to your brand and your customers. When you deal with us, I can assure you that I have the same commitment and mindset.

Welcome to the Family!

Ginny Sahni

Ginny Sahni

ABOUT GBC

GBC is one of the most trusted commercial kitchens in the G.C.C. Region and a member of the Ginny's Restaurant & Confectionary Group that has been proudly serving the community since 1989. Our handcrafted bread, sweets, savoury pastries, cakes, and cupcakes are all made in our world-class facility using the best available ingredients and go out to locally based F&B partners on a daily basis, in addition to many corporate customers as well, a few of whom we even export to across the globe.

Made with exceptional care at our 10,000 square foot state-of-the-art facility in Dubai Investment Park, our highly-trained team of experienced chefs & culinary experts combine the art & science of commercial baking to create healthy and delicious, yet unique products using the finest responsibly sourced ingredients, time-honoured baking methods, and high-end modern European equipment.

Many of the region's top restaurants, cafés, supermarkets, hotels, and QSR Brands trust GBC to supply a vast range of handmade fresh & frozen food products including customised ones developed to their unique specifications, on a daily basis.

On the quality front, our ISO 2000 and FSSC 22000 certifications ensure that our customers receive the highest standards of quality, food safety, and hygiene which are in place throughout our production facility - be it food storage and production in our hot kitchen, bakery, cake kitchen, or within our vehicles that are used for transporting, all our products are stored with utmost care to be efficiently delivered whenever and wherever our customers require them.

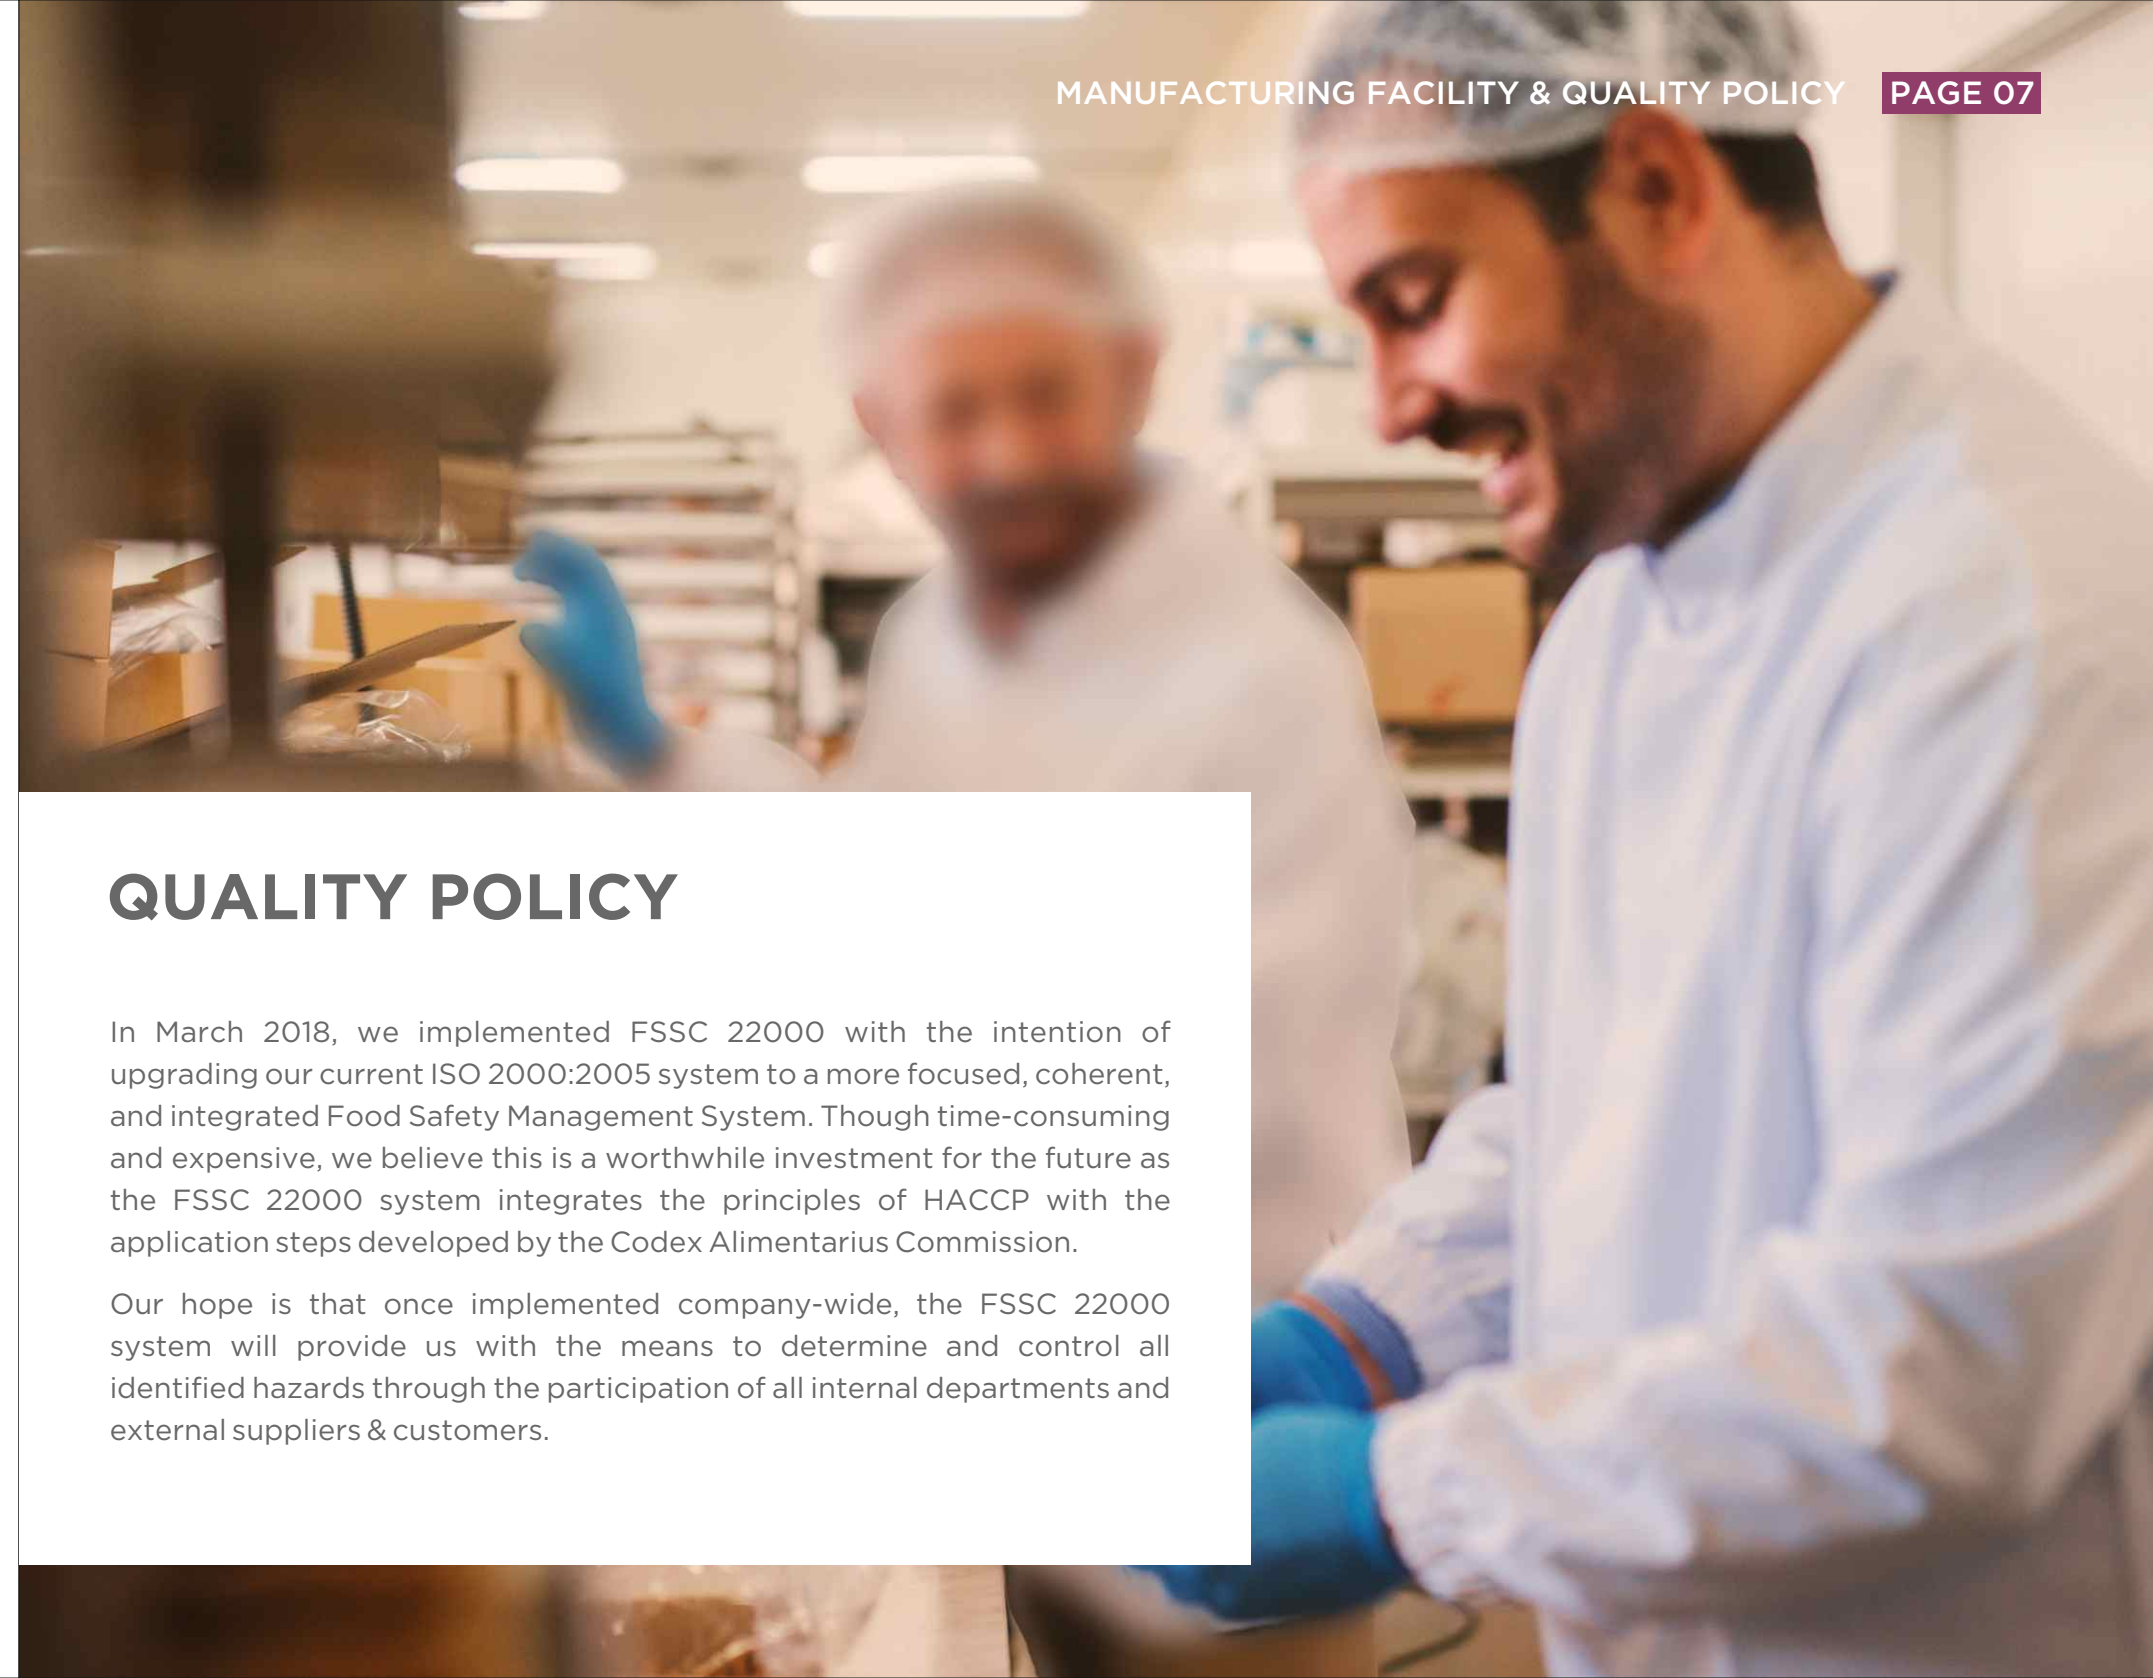

MANUFACTURING FACILITY

GBC's central production facility seamlessly combines the art & science of commercial baking to offer our customers the highest quality baked goods & cakes that are healthy and delicious.

Our modern production facilities are some of the most technologically advanced in the region and house some of the best European-made baking equipment. Our production lines are fast, efficient, hygienic, and are governed by strict quality controls; FSSC 22000 and ISO 2000. From our CCTV surveillance camera monitoring, to our humidity-controlled storage areas, our expert chefs & cooks draw from the finest locally & internationally-sourced ingredients including fresh fruit & vegetables, dry goods, and meats - all separately stored under optimal conditions.

The result of our investment is a daily production run of over 10,000 baked goods & over 3,000 loaves of fresh bread; which includes traditional bread, as well as specialist artisanal bread. Our cake kitchen produces over 300 Kg of sponge batter & 100 Kg of cupcake batter every day, which is then crafted by our talented team of pastry chefs into hundreds of fantastic cakes and cupcakes. Our top-selling products by far though are our Puff Pastries, Mini Pizzas, Baps, and Burger Buns with over 2 million units sold each year.

Our hot kitchen is equipped to handle massive events with top-of-the-line Combi Ovens for preparing hot savouries and meals. In 2014, we were the catering partner for the Indian Premier League, where we served to VIPs, athletes, and thousands of guests over 20,000 hot meals and in excess of 50,000 bakery products on a daily basis through the course of the event (for its duration in the G.C.C.).

QUALITY POLICY

In March 2018, we implemented FSSC 22000 with the intention of upgrading our current ISO 2000:2005 system to a more focused, coherent, and integrated Food Safety Management System. Though time-consuming and expensive, we believe this is a worthwhile investment for the future as the FSSC 22000 system integrates the principles of HACCP with the application steps developed by the Codex Alimentarius Commission.

Our hope is that once implemented company-wide, the FSSC 22000 system will provide us with the means to determine and control all identified hazards through the participation of all internal departments and external suppliers & customers.

TIME LINE

1989

1989

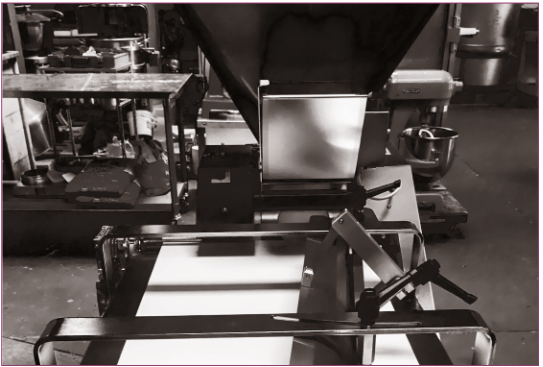

The dream of the Sahni family to establish a full-fledged bakery business in Dubai becomes a reality, with the launch of Ginny's Bakery & Restaurant.

2016

GBC is back into the spotlight by being nominated as the catering company of choice, for the Official Visit of India's PM, Mr. Narendra Modi to Dubai.

2016

2017

2017

GBC strengthens its manufacturing facility by adding several high-tech European machines to its line, increasing capacities to even handle exports.

DEC 2021

Upon resumption of regular sporting activities, post the pandemic, GBC finds itself being in demand once again as the caterers of choice for the Asia Cup.

2021

1995

1995

Ginny's range of Mini Pizzas & Nougat Cakes are a hit, with supplies to all major events guaranteed, sowing the seeds for an enhanced bakery business.

2014

The new facility begins operations with the HACCP Certification, bagging several orders including catering for the IPL matches held that year in Dubai.

2014

2018

2018

GBC gets FSSC 22000 certified, an assurance that stringent food safety standards are in place, and customers can be assured of the highest quality of supplies.

JUL 2021

GBC acquires another 5,000 sq. ft. factory, & scales up its manpower, further enhancing its production capacity to handle large voluminous supplies.

#Repost from Overall 9.7/10 Taste=10 • Presentation=9.5 • Price=9.5 Classic Beef Burger [28 AED] If you are a Game Of Thrones fan, you have to check out this gem of a restaurant When I say we are diehard fans of GoT, I don't just mean the show, I mean this restaurant. From the pun of a name, replacing the word thrones with toast is just genius GoT bias aside, we were very skeptical of this place, I mean toast instead of a bun... What?? But Luv, definitely wrong, this place
